

HTP Official Technical Certification begins with the German company DVGW

Certification process for HTPpush accessory with the German **DVGW** Accredited Agency has begun.

It will certify the accordance with **Rule Arbeitsblatt W534** "Rohrverbinder Rohrverbindungen und in der Trinkwasser-Installation."

Moreover, we will certificate compliance with the Hygienic Standard **Arbeitsblatt W270** "Vermehrung von Mikroorganismen Werkstoffen auf den für Prüfung und Bewertung-Trinkwasserbereich".

As part of the process, there will be carried laboratory tests to ensure product functionality in extreme conditions such as sustained vibration, tensile stress at break, water temperature at 95 °C, sudden pressure cycles.

To this end, the services of the following external laboratories accredited by DVGW has been subcontracted:

- *Materialforschung IMA GmbH und Anwendungstechnik*
- *Hygiene Institute des Ruhrgebiets*

With this certification we made our way not only in the German market but also in many other European countries where certification to DVGW has great popularity.

Our accessory, combining push-fit technology with a wide range of references designed to be used in plumbing and heating opens its way in the world.

DVGW form the German initials for Deutscher Verein des Gas-und Wasserfaches Technisch-Verein eV-Wissenschaftlicher - **Technical and Scientific Association for Gas and Water.**

DVGW is indispensable for the industry self-regulation gas supply and water. Their technical rules set the standard in Germany and Europe and provide maximum security combined with the best possible efficiency.

The long experience combined with the results, take precedence in our daily work:

- *techniques and safety*
- *gas supply and water technology optimization from an economic point of view*
- *resource protection and environmental care*
- *quality management, advice and quality control*
- *regulation and standardization*
- *Information and expertising transfer.*

On all these points, we are working according to industry self-regulation.

By obtaining this certification by the worldwide reference company, we take a giant step in our international presence since we got a perfect presentation letter when dealing new markets or trading with new customers.

Step by step we are consolidating the **HTP** reference mark as being a safe bet for present and future sector.
